

i've got a thing about destruction  
i've got an appetite for pain  
i wanna watch it all just burn down  
cause well this town's so lame  
wanna see it all just float away now  
wanna watch it all go up in smoke  
we've gotta feed our new affliction  
cause well this town's a joke  
i gotta see you, when everything's gone  
watch it fall  
you watch it fall now  
you watch it burn down  
watch it burn  
gonna take this city to the ground  
watch it fall  
you watch it fall now  
you watch it burn down  
watch it burn  
gonna take this city to the ground  
it's time to talk of revolution, get off your couch and start the fight  
i like it when everything fucked up, cause well it feels so right  
i wanna see you, when everything's gone  
watch it fall  
gonna watch it fall now  
gonna watch it burn down  
watch it burn  
gonna take this city to the ground  
watch it fall  
gonna watch it fall now  
gonna watch it burn down  
watch it burn  
gonna take this city to the ground  
in your home town  
i've got a thing about destruction, i've got an appetite for pain  
i wanna see it all just burn down, cause everything is just the same  
watch it fall  
gonna watch it fall now  
gonna watch it burn down  
watch it burn  
gonna take this city to the ground  
watch it fall  
gonna watch it burn down  
watch it burn  
gonna take this city to the ground
