

## Mum's The Word

Mad Caddies

well approximation of the situation tends to bend  
when you have too much to drink  
and you piss off your friends  
you cant talk,  
and you cant walk,  
and you dont know you're name,  
you find yourself attracted to a very ugly dame,

the booze just kills your conscience  
and your dick is in your hand  
and you dont know who the fuck is in your bed
