

## All This And More

Mad Sin

I got my head in the clouds  
and i kiss the dirt  
lost my heart and i'm badly hurt  
and if i kick the bucket  
i leave a questionmark  
i heard the lies and i learned the facts  
the naked truth cuts like a double axe  
all this and more just get me hexed  
struck the bullet home, i'm on a mission  
here is a small advice  
and you better learn your lesson  
all this and more is what i last for  
all this and more is what you get boy  
it's just a game that i'm going for  
all this and more  
so sick of the lies and the cover up  
i'm on a dead end cruise  
and i'm waiting to crash  
like a starship trooper in a wreckin' rush  
i set up a trap to blackmail you  
gonna steal your life  
and your golden spoon  
get prepared cause payback-time comes soon  
struck the bullet home...  
all this and more...
