

# Cannibal Superstar

Mad Sin

My bed demonica, you make the angels fall  
Abuse my flesh and wreck my soul

Whatcha do when the darkness calls?  
Where you go in the silvery night?  
I wish I could be your next bite  
With eyes that burns like fire  
You melt my brains away  
Le plus meillleure pour le gourmet

You've got to eat, eat, eat me up alive  
Here's a supply you can't refuse  
Will you eat, eat, eat me up alive?  
You never can go too far, you're my cannibal superstar

It seems like now or never  
Cuz we're living much too fast  
And you know that nothing's ever gonna last  
You're my bad girl coronation  
Please show me secret sins  
That's love deluxe limb for limb

[Chorus]
