

Oh delirium, i'm seeing double  
'cause day by day i'm sticking in more trouble  
All i ever do is getting drunk because of you  
Hey mister bartender pass another brew  
Oh delirium, my life is crazy  
And all my dreams are gettin' fucking hazy  
'cause all i ever do is getting high because of you  
Hey mister bartender pass another brew  
Well people talk behind my back and say that i'm a fool  
But they don't seem to understand that all i ever wanted was  
You (5x)  
Oh delirium, no it ain't funny  
Up my nose and down my throat went all the money  
Oh the landlords gotta wait before he's gonna get paid  
Going down the shop and get another crate  
Well people talk behind my back and say that i'm a fool  
But they don't seem to understand that all i ever wanted was  
You (5x)  
Oh delirium, my girl has left me  
I'm so blue and i need another whisky  
'cause all i ever do is getting drunk because of you  
Hey mister bartender pass another brew (3x)
