

Fight Back

Mad Sin

well fire can burn you
the world can turn you
and the things that you don't wanna know
now the time has come for you to learn
people can be cruel
words can smash you
and gives you a feeling you might know
than you're not the person you once was
fight back - don't let'em get ya
fight back - don't let'em fool ya
fight back - wake up and see
i try to make you understand
a rich man and a poor man
why can't they aren't see
that we're all the same when we will die
like the birds up in the sky, oh why?
maybe next monday - the world will crumble
and what the fuck will you become?
....the fire of a burning psych-show
fight back...
