

Hell-A-Vision Shock

Mad Sin

His TV is running day and nighttime
He wants to be like the stars on the screen
His whole live is a goddamned puzzle
Of all the movies he has ever seen

Let me in - let him in
He needs to get a hell-a-vision shock

His body is now transfused in a program
And his mind is under full control
But he is just a part of the game
And he can't get a starring role

Here he is - there he is
The victim of a hell-a-vision shock

It's a world of illusions and dreams
And he got to pay the price
No escape to reality
Soon he died with twisted eyes
