

Out Off My Head

Mad Sin

i like to surf on a tombstone in the middle of the night
out on an action patrol to see what i might find
the city eats the children away and we won't stay clear
if you ever come to town you wouldn't believe what you see
hey hey hey need no excuse we do it anyway
hey hey hey and it doesn't matter what they say
day by day i'm out off my head
she's a kid a 13 years out in the jungle but she shows no fear
the strangers are scared from the creatures of night
but if you're ok you can walk on our side
life's a bitch and then you'll die so make sure you live no lie
bye bye i think i've got to go cause my fuses have blown away
hey hey hey...
day by day we're out off our heads
