

Overpower

Mad Sin

My nerves are hurting
The blood red sky is burning down on earth
My veins exploding
This is the day of a brand new birth

Overpower - will kill the old
Overpower - my blood runs cold
Overpower - will kill the old
Let's create a brand new world

My brain is twisting
The sea is spoiling
The wood are rotten
The world is smelting

Overpower - will kill the old
Overpower - my blood runs cold
Overpower - will kill the old
Let's create a brand new world
