## **Overpower**

My nerves are hurting The blood red sky is burning down on earth My veins exploding This is the day of a brand new birth

Overpower - will kill the old Overpower - my blood runs cold Overpower - will kill the old Let's create a brand new world

My brain is twisting The sea is spoiling The wood are rotten The world is smelting

Overpower - will kill the old Overpower - my blood runs cold Overpower - will kill the old Let's create a brand new world
