

Prison of Pain

Mad Sin

I'm stalking through a house of pain
Where demons driving me insane
There is no way out - there is no escape
There is nothing left but hate

Tell me why I got no luck
Why must my life be so fucked up
I can't believe this is happening to me

I'm in a prison
I'm in a prison of pain
I'm in a prison of pain

I try to reach a slimey hand
It disappears like grains of sand
There is no one here to catch my fall
There is no help I could call
