## **Prison of Pain**

I'm stalking through a house of pain Where demons driving me insane There is no way out - there is no escape There is nothing left but hate

Tell me why I got no luck Why must my life be so fucked up I can't believe this is happening to me

I'm in a prison I'm in a prison of pain I'm in a prison of pain

I try to reach a slimey hand It disappears like grains of sand There is no one here to catch my fall There is no help I could call
