

Run to Live

Mad Sin

i don't wanna be a part of the lying clockwork link
i just wanna live my life, don't care what people think
i will never be the one, crawl on the floor for any fools
if you don't like my style, "fuck off" cause i break the rules
and we got to go, we got to live,
we don't know how long, we got to go,
live fast die young
run as fast as you can
and never come back again
i said run as fast as you can and never come back again
