

## Scarred Ole' Heart

Mad Sin

buried in the graveyard of my scarred ole' heart  
my dear this one's for you and all the things you do  
you better stop your well worn phrases right now  
see, i'm running around this planet  
the devil got me branded and i burned out on every stage so far  
a few steps ahead from complaining and disaster  
a few steps ahead and i'm ready to get faster  
a few steps ahead from your day by day the same old shit  
i'm dying for another trip  
buried in the graveyard of my scarred ole' heart  
i'm under suspicion that i still care for you  
but this ain't no zombie movie and my heart ain't no pet cemetery  
you're just another number on my list of done mistakes  
you're past.you're gone.you're life is just a fake
