

## Speak No Evil

Mad Sin

well here i'm hanging from a tree  
and the crows they eat my eyes  
but i couldn't help myself  
i'm starting to laugh so speak no evil

i shot the law down with my gun  
it was a sheriff so i had fun  
and it's a kind of a shame  
that i'm to blame so speak no evil

ref.:  
he rode with the devil through the storms and the mist  
and once they've buried him alive  
he never saw his father and his mother was a whore

i trashed a bank with my gang  
i couldn't escape the fucking fang  
and they locked me up in jail  
but i couldn't pay the bail and you say that i'm evil

well this is right and this is wrong  
you claim to tell us so  
but there's two sides of a coin  
i won't stay in line just say that i'm evil  
he rode with the devil
