

U.F.O.

Mad Sin

i was driving in my car on a lonely night
i saw a flying saucer in the sky
the coloured lights were blinding me
i felt like i'm on ecstasy
it was a u.f.o. not of this world (3x)
i crashed my car into a tree
there were creatures who took hand on me
i woke up in a big spaceship
they analyzed me what a crazy trip
it was a u.f.o....
they gave me pills and strange injections
hundred eyes stared in all directions
slimey tall creatures who smelled like shit
the stuff they gave me knocked me out
i don't know what this was all about
