

Underground

Mad Sin

If life is down the line, you can feel the vibe of the underground

No Christmas cards to send, no fortunes will be spent in the underground

Way down here it's hot, in my private lair

I might lose my mind, but I don't care

I'm true to my school, true to the underground

It's a nameless day, but we're okay

The underground is the place to stay

Lost and found with no hope for tomorrow

Goin' down?

If you're looking for a name, cuz you're all alone just go underground

You can have a lot of fun if lady wicked your way comes in the underground

Gotta get away from president hail

We ain't no playing tricks, just give me fix

Stimulate my brain oh yeah, I need the underground!

You want subterranean banana from your subterranean bwuana

Where it's hot as hell, I can serve you very well

It's a rumble in the jungle?

[Chorus 2x]
