

## Where the Wild Things Are

Mad Sin

No, no, no don't you stop the demon on the loose  
He'll bring you back dangling on the noose  
See i just love what you might fuckin' hate  
And i hide my naughty thoughts behind dark shades

[Chorus:]

Come along where the wild things are  
Don't be scared, we gonna have a ball  
Take you down where the wild things are  
Come along where the wild things are  
Heaven's a bore and way to far  
So take me down where the wild things are

Possessed and wild tonight we'll ride the blade  
Stampede the earth 'cause there are souls for sale  
Enjoy your rendezvous with Mr. D  
Just open up your mind and you will see!
