

Been There, Done That

Madball

Knew it all, I thought I knew it all
I knew nothing till it came to an end
The time has come to make move in my life
I've seen it happen all again and again
Looking back on all the things that I did
I have regrets, but that's what it is
So that was then and this is now
I've seen it happen all again and again

I've been there and done that - look back
Looking at life and where I'm at
Where do I go from here - think clear
Is the question that we all fear

Knew it all, I thought I knew it all
I was blind until I opened my eyes
Fuckin' up is how you learn in this life
Take that for granted and you'll never survive

Looking back on those things that I did
I have regrets, but it is what it is
That was then and this is now
I've seen it happen all again and again

I've been there and done that - look back
Looking at life and where I'm at
Where do I go from here - think clear
Is the question that we all fear
Think clear and look back
Remember then and where you're at
What don't kill you will make you strong
There comes a time when you must move on

I've seen a lot in my young age
A lot has changed, memories remain the same
There's different ways this game is played
Our violent ways have to end some day
