

# Infiltrate The System

Madball

Spread freedom  
Infect the masses  
Spread wisdom  
Infiltrate the system  
We are the voice of this generation  
The ones who lost our souls  
I don't think we lost ourselves  
But at times we did lose control  
It's time to get it back  
We've crawled up from the depths of hell before  
Now we're on the so called "right track"  
In a position they can't ignore  
What will we do with this voice we've been given?  
Spread freedom  
What will we do to ignite the change?  
Infect the masses  
What will we do with our experience untold?  
Spread wisdom  
Now is the time to infiltrate  
We are the ones they lost faith in  
Look now how much we've grown  
I'm not the one who planted the seed  
But I've noticed people listen to my screams  
Imagine what they'd do for you  
Sons and daughters grab hold of the truth  
Now we're in a position to lead  
Take the reins, make them believe  
What will we do with this voice we've been given?  
Spread freedom  
What will we do to ignite the change?  
Infect the masses  
What will we do with our experience untold?  
Spread wisdom  
Now is the time to infiltrate  
Now is the time to infiltrate  
Infiltrate, infiltrate, infiltrate the system
