

I've been around for some time now  
And I really don't care what some people think about me  
I've been called a lot of things  
Some good, some bad  
I've had many people doubt me  
I'm not ashamed of anything  
When it comes to this  
I stay true to the game  
And when the flames were burning slow  
I grabbed the torch and let everybody know  
What the music, the scene means to me  
With pride and sincerity  
Handed down by our brothers  
Is this our legacy?

I've been around the world and back again  
I've had the privilege of watching this grow,  
Transcend beyond the streets, the clubs, the trends  
Beyond anything we had imagined  
That's what the music, the scene means to me  
Pride and integrity  
Handed down by our brothers  
Is this our legacy?

Madball  
Legacy  
This is our legacy

It's an honor for us  
For me  
To stand side by side with those who paved the way for me  
It's an honor for us to see  
So many showing respect  
Even those who doubted me  
And it's only the beginning  
That's what the music, the scene means to me  
Pride and integrity  
Handed down by our brothers  
This is our Legacy!
