

## Set Me Free

Madball

I'm no victim  
I'm no pawn  
I've been fighting you long enough  
Well time's up  
I'm disgusted  
You've only brought misery into my life  
You're infectious like a disease  
You're venomous  
Find my cure  
Set me free  
I don't trust you  
All it takes  
Is one last mistake to break us  
I just want to get away  
I see you everywhere I go  
I'm stuck  
It's death or lockup  
If I let you beat me again  
You're infectious like a disease  
You're venomous  
Find my cure  
Set me free  
I am you  
You are me  
We are one  
You cannot set me free  
I'll do as I please  
Never question your protector  
Your talk is cheap  
To beat me  
You must kill yourself
