

Got few possessions in my life
Got a guitar and a TV
and I got friends who back me up
If some OC guy wants to beat
I must say the most valuable thing
I got's the VCB
I got their backs and I know
They'll always cover me

Autumn's gonna do what she wants to do
Autumn's gonna say what she wants to say
She fucked over many people on the way
I hope she's happy 'cause now she's got no friends

What was the meaning of the things
She used to tell me day and night
Started wrong in the beginning
But you made it seem so right
You had me blind with all your lies
To my surprise, you were unstable
But I realize, it was your life
You just weren't able

Autumn's gonna do what she wants to do
Autumn's gonna say what she wants to say
She fucked over many people on the way
I hope she's happy 'cause now she's got no friends

Autumn's gonna do what she wants to do
Autumn's gonna say what she wants to say
She fucked over many people on the way
I hope she's happy 'cause now she's got no friends
