## **Downtown**

I go down to the city even when the rain falls down (4x) I don't care if it's a boy or girl you're after I don't care if it's a record label deal I don't care if it's a nuclear reaction I don't care if it's all above the new

I go down to the city even when the rain falls down (4x)

You can take your picket fence and shove it up your ass You can take that dream of old money coming Cuz I know a place that's real maybe not the people but the way I feel

Downtown! Here we go! Downtown! Here we go! I go to the city Nothing else to do Forget about my worries Maybe you should too Downtown! Here we go! Downtown! Here we go!

I go down to the city even when the rain falls down (4x)
