

In My Head

Madcap

Am I crazy?
There are voices in my head
And I can't stop them, I'm talking to myself
These conversations get me so mixed up
Even though I trust you they tell me doubt doubt doubt

Is it in my head

Is it in me head or am I falling down a hill
Gaining momentum
Towards the crash at the bottom
Where I began

Late night phone calls
Your voice seems unconcerned
I'm pulling my hair out
One for every word
Is it all imagination
I can only wish
Wouldn't be the first time that I've been so confused

Is it in my head?

Is it in me head or am I falling down a hill
Gaining momentum
Towards the crash at the bottom
Where I began

Time keeps counting down on me
Or is it just a dream

Is it in me head or am I falling down a hill
Gaining momentum
Towards the crash at the bottom
Where I began
