

Every time I look at you I want to kill, want to kill  
Stranger things that I would do to make you feel the way I feel  
Its just that I have been broken so many thousand times  
And every time I start again I wonder why, wonder why  
Its been such a hard year, it won't ever change  
My heart isn't cold now  
Its not what it seems because  
You say to me my heart feels far away  
I'm lovesick now  
Every time you look at me I want to die, want to die  
Stranger things that I would say to make you feel the way I feel  
1  
Its just that I have been broken so many thousand times  
And every time I start again I wonder why, wonder why  
Its been such a hard year, it won't ever change  
My heart isn't cold now  
Its not what it seems because  
You say to me my heart feels far away  
Now day by day  
I start to realize nothing's gonna change  
So I became  
It doesn't really matter anyway  
Its not what it seems to me  
because  
You say to me my heart feels far away  
I'm lovesick now
