

Move Forward

Madcap

We'll unite as one to make a color not named
Because we can't move foward with this hate in the way
From coast to coast, nation to nation
No matter who you are or what you believe you're free

You can kick
You can punch
But you're never gonna break this
Tis is the future according to me

Our ears wide open to whoever may speak
And they'll be judged by their words, not by skin
Money, no money, no status, no matter
Because no matter what it does, it's all paper

You can kick
You can punch
But you're never gonna break this
Tis is the future according to me
