

## Somewhere In The City

Madcap

Sometimes it's hard to see good times ahead for you  
With all this hate and greed getting in the way  
You should come ride with me  
I know a place for free  
We can run and hide  
Through the day and night  
New York or LA  
Downtown's the place for hearts like ours  
Together we're free  
We'll run you and me through the city tonight  
Somewhere in the city tonight

Somewhere in the city tonight  
We'll hide on  
We'll be alright

Let's run the streets near 25th  
Watch the fog roll over that golden gate  
There's time tonight and nothing we can lose  
New York or LA  
Downtown's the place for hearts like ours  
Together we're free  
We'll run you and me through the city tonight  
Somewhere in the city tonight

Somewhere in the city tonight  
We'll hide on  
We'll be alright
