## **Somewhere In The City**

Sometimes it's hard to see good times ahead for you With all this hate and greed getting in the way You should come ride with me I know a place for free We can run and hide Through the day and night New York or LA Downtown's the place for hearts like ours Together we're free We'll run you and me through the city tonight Somewhere in the city tonight

Somewhere in the city tonight We'll hide on We'll be alright

Let's run the streets near 25th Watch the fog roll over that golden gate There's time tonight and nothing we can lose New York or LA Downtown's the place for hearts like ours Together we're free We'll run you and me through the city tonight Somewhere in the city tonight

Somewhere in the city tonight We'll hide on We'll be alright Madcap
