

## Friend

## Made of Hate

You were born, You will die  
Always with me by your side  
You pretend you're someone else  
Blaming others for your mess  
You got mastered in conceal  
Being assassin, that's your deal  
But I'm with you, I'm the reason  
So hear me out!

Don't ignore me, deny me  
Or try to betray our name  
You won't kill me or hide me  
I'm always there, I'm just for you

Frankly speaking - we are one,  
One for all and all for one  
So don't doubt me, 'cause you know me  
I'm the only closest crony  
Only I know what you are  
Only I know what you've done  
There is no treason, I'm the reason  
So remember!

Don't ignore me or deny me  
Or try to betray our name  
You won't kill me or hide me  
I'm always there, I'm just for you

There was a time when you were lost  
I was the one who gave you hope  
Your desire is my lust  
And your burden is our life
