Nonsense

Look, I am here for you Open up your eyes and don't look away And I'm dripping down from the fangs When I hear your name, I feel the pain And I'm crawling on the floor just thinking that I'm a fool But I wash myself and I stand again After flying with angels, yeah And now I'm backing out the corner And don't you think that I'm a runner I be coming with my guns up Shooting at the moon to bring the sun up

Fall back and close your eyes
I'm at the bottom, we can hide and be forgotten
Come closer, say my name
Say it forever, we can run away together
I keep on crushing all my love like this
All my love like this, all your love like this
I keep on crushing all my love like this
We don't need to say the words cause we're speaking nonsense

Well, you said before To lay down and close my eyes When I'm here Grabbing at my chest with a broken heart, yeah And I'm filled with fear Well I've been ripped up and tossed like a mouse Wrestled with the heavens and the devil himself Your voice can break my bones And then you speak a force rushes in and slow It rips me to pieces, yeah Well I would give my life to another Just to prove I'm not a runner I be coming with my guns up Shooting at the moon to bring the sun up

Fall back and close your eyes
I'm at the bottom, we can hide and be forgotten
Come closer, say my name
Say it forever, we can run away together
I keep on crushing all my love like this
All my love like this, all your love like this
I keep on crushing all my love like this
We don't need to say the words cause we're speaking nonsense

Don't say anything at all I don't wanna get pulled out Just get close to me, close to me Fall back

Fall back and close your eyes I'm at the bottom, we can hide and be forgotten Come closer, say my name Say it forever, we can run away together I keep on crushing all my love like this All my love like this, all your love like this
