

# The City

Madeon

There is a place in the distance  
A place that I've been dreaming of  
No more time and space don't exist there  
We can dance like there's no tomorrow  
There is a place, no time in space

I've got tomorrow to  
I've got to go all the way  
I've got tomorrow to  
I've got to go all the way  
I've got tomorrow to  
I've got to go all the way  
I've got tomorrow to

I can feel the city crumbling around me  
I can't seem to find my way  
But I can see a bright light calling through dark night  
Hoping I'll find my way

Yeah I had what I wanted  
It went away so fast fast  
Yeah I got to let go  
We can dance like there's no tomorrow  
So here we go

I've got tomorrow to  
I've got to go all the way  
I've got tomorrow to  
I've got to go all the way  
I've got tomorrow to  
I've got to go all the way  
I've got tomorrow to

I can feel the heartbeat underneath the concrete  
Just like a kick drum plays  
Running in a straight line guided by the street lights  
Pushing the dark away

Yeah I had what I wanted  
It went away so fast fast  
Yeah I got to let go  
We can dance like there's no tomorrow

There is a place in the distance  
A place that I've been dreaming of  
No oh time and space don't exist there  
We can dance like there's no tomorrow  
There is a place, no time in space

There is a place in the distance  
A place that I've been dreaming of  
No more time and space  
We can dance like there's no tomorrow  
Oh oh oh!

I've got tomorrow to  
I've got to go all the way

I've got tomorrow to  
I've got to go all the way  
I've got tomorrow to  
I've got to go all the way  
I've got tomorrow to

Tomorrow  
Tomorrow  
We can dance  
Hey!!
