

Looks Like Love

Madilyn Bailey

I better be careful
Just the way you're looking at me
Looks a lot like love love
Kiss me with your eyes
And you hold me in your thoughts all night
Locked in like a picture were frozen
Suspend the hand of time for a moment
If I could just trust what I see is right
I'd spy hearts in your eyes

Looks like love but I can't tell
Sound so loud can't hear myself
Feels like fire under my skin
Can't let it out can't let it in
Taste like everything I want
What if it is what if its not
I almost wish it didn't but it does

It looks like
It looks a lot like love

I better go slow now
'Cause I still don't know how to fall
In love without hitting the ground
Maybe it's a crime baby
Maybe getting caught what I want
Tangles this is more than I can handle
The more I fight it the more I strangle
I see a crack in the looking glass
Close my eyes as we crash

Looks like love but I can't tell
Sound so loud can't hear myself
Feels like fire under my skin
Can't let it out can't let it in
Taste like everything I want
What if it is what if its not
I almost wish it didn't but it does
I almost wish it didn't but it does

Just a blink I catch a glimpse
Of the other side
Too late now to change my mind
Hold my breath and collide

Looks like love but I can't tell
Sound so loud can't hear myself
Feels like fire under my skin
Can't let it out can't let it in
Taste like everything I want
What if it is what if its not
I almost wish it didn't but it does
I almost wish it didn't but it does

Looks like love
Looks like love
Looks like love

Looks like love
Looks like love
Looks like love
Looks like love
