

We walk past a dead end street
Atop the hill so we can be alone.
Under the moon it's beautiful.
The stars clear the black of night when I'm with you.
And nervously I take your hands
and promise you I'll take you for a ride...
"... and someday we'll have it all, you and me, we're gonna be
stars"

We'll runaway from everything you hate,
Runaway to everything you've wanted
Take my hand, let's get famous.
We'll runaway from everything you've fought
Runaway to everything you've loved
Take my hand, let's get famous.

I'm amazed how things can change.
How the real world can chase our dreams away.
How did you give up so easily?
'Cause I'd rather make them bury me... so let's

Runaway from everything you hate,
Runaway to everything you've wanted
Take my hand, let's get famous.
We'll runaway from everything you've fought
Runaway to everything you've loved
Take my hand, let's get famous

Our names in lights across the sky,
It's beautiful and our whole lives
Will be headlines across the whole world...

I can't let you live, you're just a ghost
And I'm feeling sick inside my head.
You won't feel a thing
I'll cover up your eyes as I bury you.
I know I bury this under drowning eyes,
And I'll carry it till the day I die.

We'll runaway from everything you hate,
Runaway to everything you've wanted
Take my hand, let's get famous.
We'll runaway from everything you've fought
Runaway to everything you've loved
Take my hand, let's get famous
