

# Give Me a Reason

Madness

Well we change from one extreme to another  
Can you help me with my shame  
I didn't mean to when I kicked and punched  
From nowhere this demon came

Forgive me for this mindless mood  
Accept this honest plea  
Don't use me for the devil's food  
And throw away the key

Give me a reason so I've got  
Someone else to blame  
Give me the reason so I've got  
Something else to blame

I only meant to wipe away the cries  
With the softness of my hand  
I didn't mean to break the tie  
I'm after all a family man

Give me a reason so I've got  
Someone else to blame  
Give me the reason so I've got  
Something else to blame

Give me the reason  
Give me a reason

I am the master of this house  
Don't try to run away  
I tried the same things at your age  
And I was also made to pay

Forgive me for this mindless mood  
Accept this honest plea  
Don't use me for the devil's food  
And throw away the key

Mister patience and Misses alike  
Upon and throughout the land  
A lot of attention  
With a heap of affection  
Wouldn't go astray

Give me a reason so I've got  
Someone else to blame  
Give me the reason so I've got  
Something else to blame

This is the reason, one of the reasons

I am the reason so I've got only myself to blame  
I am the reason so I've got no-one else to blame
