

Taller Than You Are

Madness

Why should you try to be much taller than you are
Why do you try to hang a little out so far
You say you're right, when you are wrong
And though you're weak, you believe you're strong

Why should you try to be much taller than you are

You are always, telling people you are the best
But it's not so, when they put you to the test
So come on, let's be fair and square
Take what is yours, but please leave my share

Why should you try to be much taller than you are
O-oh!

You will never reach the top like that, my friend
And though you think your up, you will fall down, in the end
It is time for you to realise
And try and be your little size

Why should you try to be much taller than you are (3x)
