

Cut me down the middle
Fucked me up a little
You said I was your queen
I tried to give you everything
And now you want your freedom

You got just what you came for
A bit of fame and fortune
Now I'm no longer needed

You said it was over
Wanted it to end
Then you had the nerve to say that we could still be friends
You had a few secrets
I was never told
Now everyone's talking and I'm the last to know

Now I'm in the middle of heartbreak city
Cause I'm in the middle of a world not pretty
Your clever game got the best of me
But you ain't gonna get the rest of me
Cause I'm in heartbreak city

Tore me into pieces
Didn't have no damn reason
I let you in my house
You helped yourself to everything
And left me with your mess

I curse the day we met
Your memory is haunting me
I wish I could forget

You said it was over
Wanted it to end
Then you had the nerve to say that we could still be friends
You had a few secrets
I was never told
Now everyone's talking and I'm the last to know

I'm in the middle of heartbreak city
Now I'm in the middle of a world not pretty
Now I'm in the middle of heartbreak city
Cause I'm in the middle of a world not pretty
Your clever game got the best of me
But you ain't gonna get the rest of me
Cause I'm in heartbreak city
And it's not that pretty
And it still feels shitty
