

# Hold Tight

Madonna

A million miles later  
We walk through the valley of the darkest night  
We made it through the fire  
Scarred and we're bruised but our hearts will guide us  
Together I know noone else is gonna last forever  
We're gonna be alright tonight

We live with no limits  
We dance in the middle of the freezing rain  
With you and I in it  
We'll survive the eye of the hurricane

Together, we're gonna make this better  
We're gonna be alright tonight

Hold tight, as long as you're by my side  
Hold tight, everything's gonna be alright  
Only love, only love tonight  
Let's start before it's over  
Hold tight, everything's gonna be alright

Everything's gonna  
Everything's gonna  
Everything's gonna

A million miles later  
We walk through the valley of the darkest night  
We made it through the fire  
Scarred and we're bruised but our hearts will guide us  
Together I know noone else is gonna last forever  
We're gonna be alright tonight

Hold tight, as long as you're by my side  
Hold tight, everything's gonna be alright  
Only love, only love tonight  
Let's start before it's over  
Hold tight, everything's gonna be alright

Everything's gonna  
Everything's gonna  
Everything's gonna

I don't wanna breathe if you're not breathing  
I don't wanna hear if your heart's not beating  
If you're hurt then I wanna be the one that's bleeding  
Wanna be the one that's bleeding  
Hold tight, everything's gonna be alright

Everything's gonna  
Everything's gonna  
Only love, only love tonight  
Let's start before it's over

Everything's gonna  
Everything's gonna
