Shoo bee doo bee doo ooh la la When I look in your eyes Baby here's what I see I see so much confusion And it's killing me

When I look in your eyes Baby here's what I see I see so much confusion And it's killing me

Well I can't take it anymore, baby Why don't you dry your eyes, try and realize Love can open any door, and maybe If you trust in me, I can make you see

Shoo bee doo bee doo ooh la la, come to me baby Shoo bee doo bee doo ooh la la, don't say maybe Shoo bee doo bee doo ooh la la, come to me baby Shoo bee doo bee doo ooh la la

I can see you've been hurt before But don't compare them to me 'Cause I can give so much more You know you're all I see

Well I can make it on my own, baby But I'd rather share all the love that's there I don't want to be alone, and maybe You will see the light, baby spend the night

Shoo bee doo bee doo ooh la la, come to me baby Shoo bee doo bee doo ooh la la, don't say maybe Shoo bee doo bee doo ooh la la, come to me baby Shoo bee doo bee doo ooh la la

Shoo bee doo bee doo, baby

Come to me baby Pretty darling, don't say maybe
