

Some Girls

Madonna

Some girls can do anything
Whole world hanging on a string
She is flawless as fresh as she seems
Some girls got an attitude
They kiss without asking who

Hot in the loop
Some girls got a sexy look
One drink and is all a blur
Cash two is you wanna flirt

Some girls going on the deep end
Some girls living for the weekend
Some girls I can get the freak on
Some girls make a scene
Shoot their mouths and talk a scene
Crying in a limousine

Some girls make you feel like a rocket hard as steel
Some girls only ever like to see

Some like to be me I am everything you wanna be
I got you baby please
I got you baby please

Some girls wanna call the shots
Some girls wanna be on top

Some girls have a filthy mouth
All talk and they never stop
Just take it it's not enough

Some girls make a scene
Shoot their mouths and talk a scene
Crying in a limousine
Some girls make you feel like a rocket hard to steel
Some girls only ever like the scenes

Some girls are not like me I am everything you ever dreamed of
I got you bagging baby please
I got you bagging baby please

Wrap your arms around my neck it's time to steel some hugs today
If you wanna play this game with me
I am not like all the rest
Some girls are second best
Put your loving to the test, you'll see

Some girls are not like me
I never wanna be like some girls
Some girls are just for free
I never wanna be like some girls

Some girls are not like me I am everything you ever dreamed of
I got you bagging baby please
I got you bagging baby please
Some girls are not like me I am everything you ever dreamed of

I got you bagging on your knees
I got you bagging baby please

Some girls are not like me I never wanna be like some girls
Some girls are just for free
I never wanna be like some girls
