Madrugada

Well I heard the bee that hummed of the USA  
Well I heard the bee that hummed of the UK  
The brand new school will keep you read it anyway you want  
You need to make sence be a millionare be sharp, hey be blind  
Oh oh, hell nock down everything, oh oh oh oh  
Hell's on the radio  
Well I heard the bee that hummed of the USA  
And I heard about the bee enough and then I heard about the pain  
Oh boy you better wake up soon you better wake up now  
This song is a better one this song is a meaningful, meaningful  
shalala  
Oh oh, hell nock down everything, oh oh oh oh  
Hell's on the radio  
Oh oh, hell nock down everything  
You now I ain't been around  
Been around yeah  
Been around  
But I could give up the lot to get away from this town around  
Well I heard that something broke that precious heart  
Hey Mister now tell me what you really know  
Now that after the drugs you've done so smart  
Oh the cover girl is knocked is falling  
From the cover of a magazine  
And the other girl who told me to the ballroom ? with the ? of  
heroine  
Oh oh, hell nock down everything, oh oh oh  
Hurts on the radio  
Oh oh, hell nock down everything, oh oh oh  
You now I ain't been around  
Been around yeah  
Been around  
And I'm coming down and I ain't been around, no  
Been around yeah  
Been around  
But I could give up the lot to get away from this town around  
Give up the lot to get away from this town around
