

# This Is How Love Is Made

Mads Langer

Take off your make up - take down your hair  
Cause I want to see everything - leave nothing to spare  
Cause all that is you is beautiful

From your toes to your lips - with my fingertips  
I'll cover every inch of you - every single bit  
And all that is you is so beautiful

I don't want no angel  
I just want you  
Someone who is real and I can hold on to

You just lay back and let my hands lead you all the way  
- This is how love is made

Cause you are worth savoring - taking real slow  
From every angle above and below  
Cause all that is you is so beautiful

I don't want no angel  
I just want you  
Someone who is real and I can hold on to

You just lay back and let my hands lead you all the way  
- This is how love is made

We're crossing the line  
We're taking our time

I just wanna touch you baby

I don't want no angel  
I just want you  
Someone who is real and I can hold on to

You just lay back and let my hands lead you all the way  
- This is how love is made
