

# Sometimes I Can't Make It Alone

MAE

I thought that part of me was what she'd want  
But she got the whole thing  
And there's no doubting anything she does  
She gets inside me

To think it'd be this clear  
Above the atmosphere  
I'm flying with no fear now

I was always floating around  
Head in the clouds  
Thinking I could make it on my own (sometimes I can't make it on my own)  
Falling down as my back hit the ground  
It felt like a heartbeat; time to get out  
Well if you take it, tried and can't fake it  
But sometimes I can't make it alone  
Sometimes I can't make it alone

She's staring into me with all she's got  
Oh what a bright thing!  
She fills the space between with air to breathe  
She's got inside me

To think it'd be this clear  
Above the atmosphere  
I'm flying with no fear now

I was always floating around  
Head in the clouds  
Thinking I could make it on my own (sometimes I can't make it on my own)  
Falling down as my back hit the ground  
It felt like a heartbeat; time to get out  
Well if you take it, tried and can't fake it  
But sometimes I can't make it alone  
Sometimes I can't make it alone

I think I've always been afraid to fly  
Without a reason why  
Tonight, you and I go faster and faster  
Higher, higher

I was always floating around  
Head in the clouds  
Thinking I could make it on my own (sometimes I can't make it on my own)  
Falling down as my back hit the ground  
It felt like a heartbeat; time to get out  
Well if you take it, tried and can't fake it  
[repeat]

I was always floating around  
Head in the clouds  
Thinking I could make it on my own (sometimes I can't make it on my own)  
Falling down as my back hit the ground  
It felt like a heartbeat; time to get out  
Well if you take it, tried and can't fake it  
But sometimes I can't make it alone  
Sometimes I can't make it alone
