

I'm a Party

Magazine

I'm such and such
I'm a scream
bad choices take me to task
you'll see
I'll take out the car
but nobody'll want to crash
Take me with you
I'm a party
I don't know where I've been
so all things being equal
I'm a party
I won't know where we're going

You could do me a favour
do whatever you want to
I will let you hurt me
because I know it hurts you
it hurts you

What you say goes
I'm a party
all over the town
I fell into you
I keep up with all that's coming down
So, what's shaking!
I'm a party
you've got me racing, you've got me racing
the sound of a siren
in all the spaces between

You could do me a favour ...

I know it hurts you
I'm a party
