

First class ticket to heaven

Magdalena Tul

Don't stop, don't stop!

One shot - a deadly combination
It was non stop, pure infatuation
I was falling, more in
Deeper than an ocean with you

We've got an open invitation
Next stop, our final destination
It's calling, stalling
Engines getting ready to burn

Boy you're running out of time
Before you know, the tables turn

Don't stop, now when we're so close
It only gets better
(Baby just take a leap of faith)
It won't stop once it has started
And goes on forever and ever
I need you to hold on now
We've got a first class ticket to heaven
Come on board right now
Don't stop

So hot, this animal attraction
Both caught, the web of satisfaction
Won't let go, we know
Summer may turn into snow

You've got to lay it on the line
Be strong, never ever let me go

Don't stop, now when we're so close
It only gets better
(Baby just take a leap of faith)
It won't stop once it has started
And goes on forever and ever
I need you to hold on now
We've got a first class ticket to heaven
Come on board right now
Don't stop
