

## Canada

Maggie Reilly

If I could have a day or two  
Just to spend some time with you  
I think I would  
And if I could have a month or two  
Just to spend my time with you  
I think I would

But the light's fading in the distance  
I drive my weary way home  
Skylight is red with all the citylights  
And driving's such a long way home

I've been saving half the year  
To make this trip and come back here  
But now it's done  
You tell me that my accent's changed  
apart from that I'm still the same  
But now it's done

The light's fading in the distance  
I drive my weary way home  
Skylight is red with all the citylights  
Glasgow's such a long way home

See the light fading in the distance  
I drive my weary way home  
Skylight is red with all the citylights  
I'm driving such a long way home

I'm flying back to Canada  
Looking up at all the stars as we take off  
These three weeks seem so short somehow  
I wish they were starting now  
As we take off

But the light's fading in the distance  
I drive my weary way home  
Skylight is bright with all the citylights  
And Glasgow's such a long way home
