

## Little Boy's Eyes

Maggie Reilly

There's something in the air tonight  
A feeling all around me  
The glimmer of a distant light  
A star to guide me  
I don't believe it, it can't be true  
Halfway up to heaven  
I put my faith and my trust in you  
Don't let me down  
You smile and like a rainbow  
Everything's bright in my little girl life  
Your laughter makes my heart glow  
You make me cry with those little boy's eyes  
I didn't know the time was right  
You came along and moved me  
Now everything is here tonight  
The way you love me  
Don't believe it, it can't be true  
I'm halfway up to heaven  
I've put my faith and my hope in you  
Don't let me fall  
You smile and like a rainbow  
Everything's bright in my little girl life  
Your laughter makes my heart glow  
You make me cry with those little boy's eyes  
Never go too far away  
Stay here beside me  
And with your gentle loving ways  
Don't ever leave me  
You smile and like a rainbow  
Everything's bright in my little girl life  
Your laughter makes my heart glow  
You make me cry with those little boy's eyes  
You smile and like a rainbow  
Everything's bright in my little girl life  
Your laughter makes my heart glow  
You make me cry with those little boy's eyes  
You make me cry with those little boy's eyes
