Watch Out Boys

I don't care if it takes too long to apologise I don't care if it lasts all week like a satellite I don't care if you see me all alone in the candlelight I don't care if it takes too long to apologise For things I never realised

Watch out boys The girls next door They're gonna run run run Through your heart once more Watch out girls the boys next door They're gonna run run run Through your heart once more

I don't know if it's gonna work out without you I don't know if I can take two steps around you I don't know if you don't know that she still wants you I don't know whether I could be so careful

Watch out boys The girls next door They're gonna run run run Through your heart once more Watch out girls the boys next door They're gonna run run run Through your heart once more

For things you never cared for Run Run
