## **The Final Star**

**Magic Kingdom** 

In a time of tragedy our children live in fear The madness of humanity is growing by our sins I hear you calling, I hear your cries I see the fury, I see you die We are reaching for the sky. We'll never see the light Fire plays with our lives, the devil is in our crimes

Only the good will follow Only the good will follow the sign Only the good will follow Only the good will follow the star

Fighting for freedom, blood has always flown Looking for power, blood will always from Wind of destruction, wind cols as ice Hear all my prayers, lord of forgotten souls We are reaching for the sky. We'll never see the light Fire plays with our lives, the devil is in our crimes

Only the good will follow Only the good will follow the sign Only the good will follow Only the good will follow the star

We are reaching for the sky. We'll never see the light Fire plays with our lives, the devil is in our crimes

Only the good will follow Only the good will follow the sign Only the good will follow Only the good will follow the star
