

Where are you now?  
Can you take me there?  
I'm a thousand miles away from anywhere  
If only you could just make the time  
We'd cut and run and leave this all behind

So let's go, go, go  
Wherever we can finally be alone, lone, lone  
I want to, I need to understand, stand, stand  
That everything between us is love  
And we're not making it all up

Catherine, I know  
We came so close  
But I keep following the feeling that scares me most  
Catherine, I tried  
You know I'm on your side  
I feel you right here  
Keeping me up tonight

Know that I will wait for you  
Just to shock me back to life and make it through  
'Cause honey you are the only kind  
Of spirit that can breathe life into mine

So let's go, go, go  
Wherever we can finally be a lone, lone, lone  
I want to, I need to understand, stand, stand  
That everything between us is love  
And we're not making it all up

Catherine, I know  
We came so close  
But I keep following the feeling that scares me most  
Catherine, I tried  
You know I'm on your side  
I feel you right here  
Keeping me up tonight

Know that I will wait for you  
Just to shock me back to life and make it through  
'Cause honey you are the only kind  
Of spirit that can breathe life into mine  
And we're not making it all up

Catherine, I know  
We came so close  
But I keep following the feeling that scares me most  
Catherine, I tried  
You know I'm on your side  
I feel you right here  
Keeping me up tonight
